OUR RESIN BOUND **Blends**

Arctic White

This premium marble blend speaks for itself, an almost pure, brilliant white colour throughout. Simple but beautiful, easily complimenting modern style properties with its cool, antarctic theme. Almost canvas like in highlighting key points of your patio or driveway. Arctic White works well around hot tubs and swimming pools keeping cooler under bare feet than some darker blends.

Rock Type: Marble
Rock Shape: Naturally Round

Autumn Dawn

A favourite with traditional properties, this auburn-coloured compilation is a mix of red and golden hues and includes nicely rounded shiny pebbles and granite stone which radiates a luxurious finish. Used best to compliment red brick properties.

Rock Type:

Quartzite, Quartz & Granite

Rock Shape:

Naturally Round, Some Angular

Azzuro Blue

This is our best selling marble blend and is a relatively new addition to our portfolio. It is extremely elegant, lending itself well with both modern and traditional properties. "Angelo Azzuro" in english means "Blue Angel" which is also a summer cocktail whose colour is similar to the sophisticated and captivating "blue grotto" in Capri, Italy. This marble with its soft grey/blue tones will make your property, lawn, or hot tub a real focal point with the advantage of feeling cooler under bare feet than some darker blends.

Rock Type:

Marble

Rock Shape:

Naturally Round

Caramel Latte

One of our most popular resin bound colours and is a favourite of home owners who are after an attractive resin bound driveway or pathway that will emphasise the bright colours surrounding it, such as grass or flowers. The subtle yellow is not too overpowering but is still bright enough to make an onlooker notice.

Rock Type: Quartzite
Rock Shape: Angular

Chestnut

A tight-knit resin bound fusion of natural golden colours. Trowelling is made easy because of the round nature of the pebbles. An attractive natural looking colour and one of our most popular and bestsellers which offers a charming finish to any property.

Rock Type: Quartzite
Rock Shape: Naturally Round

Clarity

This colour blend is part of our luxury range. Offering fantastic shades of pearl and yellows with a hint of silver giving any project a real sparkle. Creating a warm blend which works beautifully with any style of property.

Rock Type: Quartzite & Granite
Rock Shape: Angular

Coastline

A 2023 blend. Coastline is mainly a combination of naturally rounded aggregate, so it is comfortable to walk on. Hardwearing and attractive this blend is suitable for patios and paths as well as being perfect for driveways.

Rock Type: Quartzite
Rock Shape: Naturally Round, Some Angular

Cortado

Cortado is full of beauty and character, sandy colours mixed with cream and silver specks. Creating a real head turner on any driveway, patio or path.

Rock Type: Quartzite, Quartz & Granite
Rock Shape: Naturally Round, Some Angular

Crème Brûlée

This colour blend is golden, beige with a hint of brown. Crème brûlée is one of our best sellers and goes particularly well against stone properties. Suitable driveways, patios and paths.

Rock Type: Quartzite
Rock Shape: Naturally Round, Some Angular

Equinox

A blend full of beiges and greens, giving all the beauty of spring. This blend goes very well against planted and grassed areas making it a great choice for garden patios as well as driveways.

Rock Type:

Quartzite, Dolerite & Granite

Rock Shape:

Naturally Round, Some Angular

Everglade

Another of our blends of 2023. With stunning golds and a slight green overtone. This blend is an absolute gem! Suitable for all applications, driveways, paths, patios and pool surrounds.

Rock Type:

Quartzite & Granite

Rock Shape:

Naturally Round, Some Angular

Grigio Grey

A pure, premium marble blend. Another one that's just perfect for those balmy summer days in the hot tub! A stylish light blend, this one will give you a real sense of space. Will really make your lawns and planted areas "pop".

Rock Type: Marble
Rock Shape: Naturally Round

Harbour Beach

Our Harbour Beach premium blend is a real head turner. A beach and seashell inspired combination of marble. This blend is suitable for many scenarios and settings. Soak up the sun amongst the sand and shells with a real feeling of warmth and contentment on this stunning surface.

Rock Type: Marble
Rock Shape: Naturally Round, Semi Angular

Haystack

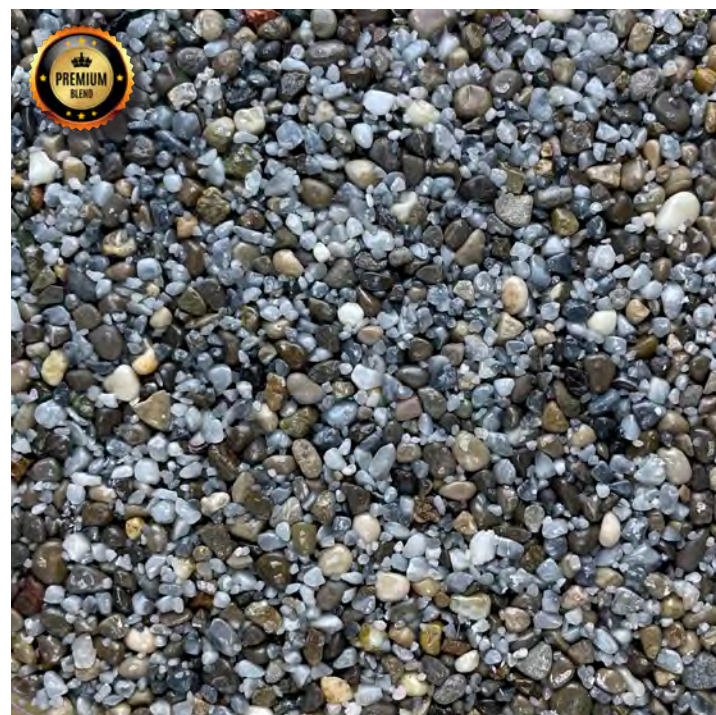

Haystack is a very popular blend, consisting of angular yellow-coloured aggregates with a hint of silver. This is ideal for overcast areas or just to brighten up the garden. Ideal for driveways, patios and paths.

Rock Type: Quartzite & Granite
Rock Shape: Angular

London Clay

London Clay is another blue-grey blend of ours named after the stiff blue-grey unweathered clay that lies 150 metres thick beneath our capital city! Many properties will benefit from the addition of this blend including established or new buildings, as the coloration is so versatile. This is a chic new blend of aggregate including marble and is suitable for all scenarios.

Rock Type: Granite & Marble
Rock Shape: Naturally Round

Marengo

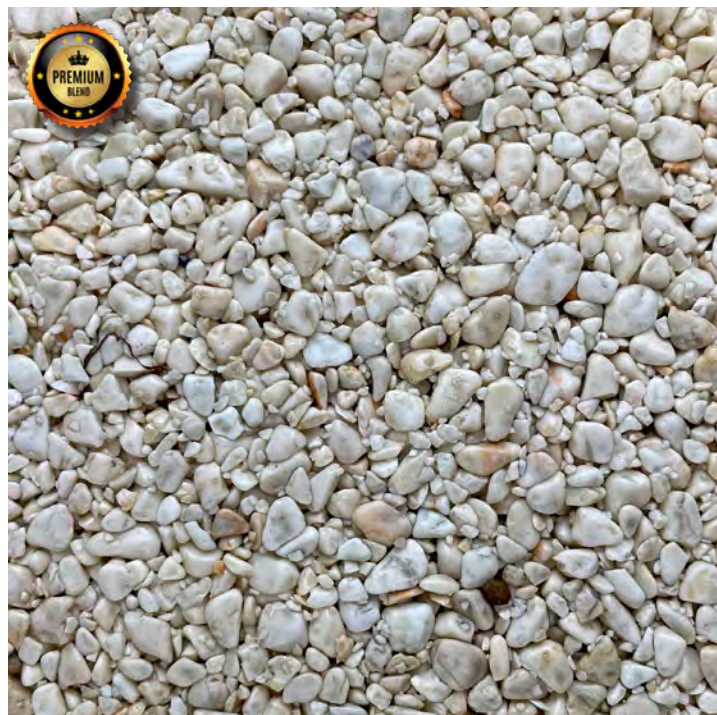

Marengo is a modern approach to darker greys. Flecked with some natural stone colours, this blend looks fantastic against modern properties with lighter brickwork. Suitable and strong for all scenarios, be it a driveway, path or patio.

Rock Type: Limestone & Sandstone
Rock Shape: Naturally Round

Mirage

Another of our premium marble blends, Mirage has creamy sandy tones running throughout, creating an even and consistent finish. Perfect for use on driveways, paths and patios this light coloured stone is a real head turner and makes for a stand out finish.

Rock Type: Marble
Rock Shape: Naturally Round

Mocha

Only the finest French aggregates are used in this blend, creating a beautiful golden surface that can be used on large areas. Mocha is varying in size, dimension and texture. Creating a very tight-knit surface, this is perfect for all installations of driveways, patios and paths.

Rock Type: Quartzite & Quartz
Rock Shape: Naturally Round

Moon Dust

Moondust is a trendy mix of darker grey with tiny black flecks. Offering a very appealing look for any outdoor surfaces, be it a path, patio or driveway. Its close knit structure allows for a fantastic compression during trowelling and a durable resin bound surface that will stand the test of time.

Rock Type: Granite
Rock Shape: Angular

Moonlight

A breath-taking look using silver granite, giving you the speckled appearance. The blend of silver granite aggregates blends in everywhere. Moonlight is one of the most favoured resin bound blends. This can be used on driveways, patios or paths.

Rock Type: Granite
Rock Shape: Angular

Mountain Spring

With a colour palette of vibrant green and whites giving a varying dimension of stone, making this option an ideal perfect blend for any setting. Producing a fantastic and elegant choice with its speckled effect.

Rock Type: Quartz, Dolerite & Granite
Rock Shape: Angular

Nebula

This blend looks sensational on large areas. The light grey tones of silver really make the breathtaking fresh colour of its green granite stand out. Nebula really looks good against modern style properties due to its contemporary look. Suitable for driveways, patios and paths.

Rock Type: Granite & Dolerite
Rock Shape: Angular

Obsidian

A porous and ideal alternative to tarmac, our Obsidian colour will allow water to drain through giving a huge advantage by reducing drainage costs. This striking black twinned with a stunning shine is perfect for resin bound borders or full driveway systems.

Rock Type: Basalt
Rock Shape: Angular

Ocean Pearl

The Ocean Pearl is a luxury blend of aggregates, using creamy whites and silver coloured stones, creating a fantastic white-pearl colour. This is a very popular blend due to its luxurious appearance. Suitable for driveways, patios and paths.

Rock Type: Quartz
Rock Shape: Naturally Round

Pepper Corn

An extremely versatile premium marble blend. Matched with traditional brick, stone and modern properties, this blend works well in any setting and scenario. Featuring onyx marble, with its subtle pink tones, just like a mix of peppercorns, red bricks are also the perfect match. Very eye catching indeed.

Rock Type: Marble, Granite & Quartzite
Rock Shape: Naturally Rounded

Shadow Blue

Showcase your property with our premium blend Shadow Blue. Named after the rare granite, this elegant, luxurious new blend boasts a range of blues and greys with a tiny splash of natural. This blend is the perfect addition to any property, traditional or modern.

Rock Type:

Marble & Granite

Rock Shape:

Naturally Round, Semi Angular

Sunset

Sunset is a stunning combination of red and golden aggregates. This resin bound mix offers a warm tone. A lovely decorative surface with a great definition and texture and a very popular choice for commercial properties and homes alike.

Rock Type:

Quartz & Granite

Rock Shape:

Angular

Supernova

A touch of silver and jet-black aggregates creates a stunning glitter like appearance. This colour goes very well with modern style properties. Supernova is a real eye catcher, recommended for driveways, patios and paths.

Rock Type: Granite & Basalt
Rock Shape: Angular

Tempest

A blend released in 2023 comprising of angular lighter silvers entwined with black. Versatile in its application, paths, patios, pool surrounds and driveways just to mention a few. This blend is modern, clean and contemporary.

Rock Type: Quartz
Rock Shape: Angular

Tundra

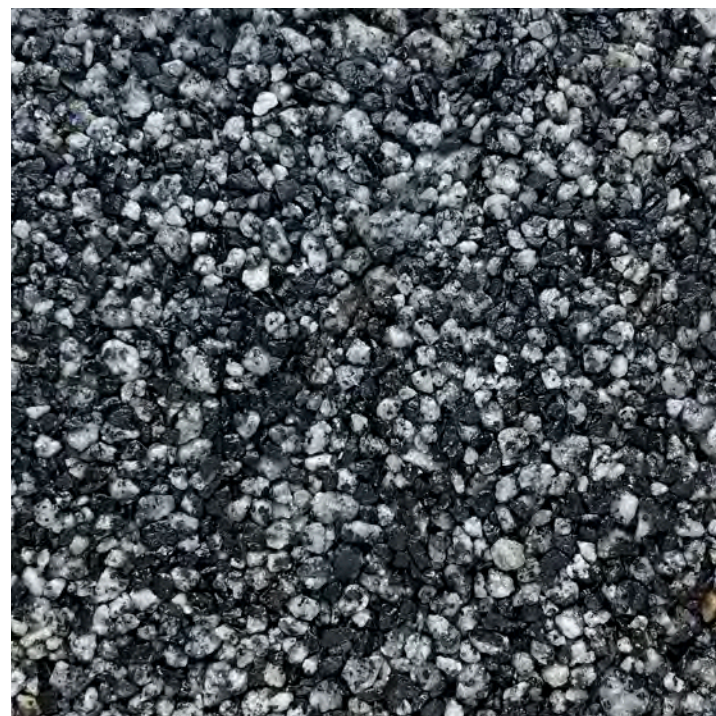

This premium blend includes marble and provides a snowy mountain-esque mixture of colours. Showcasing a sharp contrast between light white snow and dark grey mountain stone. This blend suits any modern or traditional style properties.

Rock Type:	Marble & Quartzite
Rock Shape:	Naturally Round

Tungsten

A new contemporary finish featuring stunning darker silver greys dappled with black. A spectacular blend of angular aggregates. Offering a striking contrast to a lawned garden, this blend compliments many different types of architecture from trendy modern to more conventional older style properties.

Rock Type:	Granite & Basalt
Rock Shape:	Angular

Volcanic Ash

Offering a defined appearance and texture, these two resin bound colours are a strong mix of aggregate. These UK sourced gravels are angular in shape and so creating an ideal resin bound aggregate for drives and ground cover. Ideal for high traffic driveways as it is a great colour to mask dirt and tyre marks.

Rock Type: Granite & Dolerite
Rock Shape: Angular

Walnut

This is a mix consisting of sandy and yellow coloured aggregates, creating a beautiful decorative golden finish. A real head turner for any driveway, patio or path.

Rock Type: Quartz
Rock Shape: Angular
